The University of Tennessee - Knoxville
RADIATION EXPOSURE HISTORY RELEASE

In compliance with the State of Tennessee Regulations for Protection Against Radiation 0400-20-05-.133, our department is required to obtain your occupational exposure from this current year and any lifetime cumulative occupational radiation dose. Therefore, if you have been monitored for radiation exposure for exposure at another institution or employer this year, or in any previous years, please provide the following information below.

To Whom It May Concern:

You are hereby granted permission to make available to the University of Tennessee - Knoxville Radiation Safety, any and all information concerning my occupational radiation exposure received from working at your facility.
